GitHub: github.com/Priyansh-Pathak

SUMMARY

Driven Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning. Proven ability to build intelligent systems and production-ready web applications through multiple internships and hackathons. Strong problem-solving, adaptability, and coding skills. Eager to contribute to impactful software development and research roles.

EDUCATION

SRM Institute of Science and Technology

B.Tech in Computer Science (AI & ML) | Aug 2023 - May 2027

Relevant Coursework: Machine Learning, Data Structures & Algorithms, Software Engineering, Database Management Systems

IIT Ropar

Minor in Artificial Intelligence | Expected 2025

EXPERIENCE

Research Intern | IIT Mandi | May 2025 - Jul 2025

â€¢ Conducted research on AI-based video attendance using face recognition and Siamese networks.

â€¢ Implemented data pipelines with TensorFlow/Keras, MTCNN, and triplet loss for robust facial feature embedding.

â€¢ Performed extensive dataset preprocessing, model evaluation, and comprehensive literature surveys.

AI Intern | AIEnsured | Jul 2025 - Sep 2025

â€¢ Developed and fine-tuned ML models focusing on fairness, robustness, and explainability (FATE).

â€¢ Automated model evaluation pipelines, documented results, and ensured auditability for AI governance.

â€¢ Integrated AI governance tools into client workflows to promote responsible AI deployment.

AI/ML Intern | Sky Brisk Technologies

â€¢ Built predictive analytics models, performing intricate feature engineering and hyperparameter tuning.

â€¢ Optimized model performance and collaborated on the seamless deployment of AI solutions.

PROJECTS

AI-Powered Video Attendance System

â€¢ Flask-based system using Siamese neural networks, MTCNN, triplet loss for face recognition.

â€¢ Automates preprocessing, model training, and attendance logging.

Tech: Python, Flask, TensorFlow/Keras, OpenCV

Smart Cultural Storyteller

â€¢ AI application narrating cultural stories from user-uploaded images using Google Generative AI.

â€¢ Features a Streamlit interface for interactive storytelling.

Tech: Python, Streamlit, Generative AI API

Face Recognition Attendance System (GUI)

â€¢ Python Tkinter and OpenCV application with password-protected training and real-time recognition.

â€¢ Exports attendance data to CSV.

Tech: Python, Tkinter, OpenCV

SKILLS

Languages: Python, Java, C, C++, JavaScript, SQL

Web: HTML, CSS, React.js, Flask

Tools/Frameworks: OpenCV, Selenium, MATLAB, Git, TensorFlow, Keras, Streamlit, MTCNN
